

WHAT TO DO ON A RAINY DAY ?

2022

GOLFE DE SAINT-TROPEZ

Grimaud and the Gulf of Saint-Tropez are very lucky to benefit from a very high level of sunshine, with an average of 2,700 hours per year, i.e. a total of approximately 149 days per year of significant sunshine.

In this regard, the Var coast holds the national record for sunshine.

However, here too, it can happen that the sky darkens and that rain falls. But no problem, we have listed for you what you can do in the region on rainy days.
